UNDER TROPICAL CLIMATES. BALFINORS, Md., June 4, 1864. ir. Rockbridge, of the Fountain Hotel. Light street,

Dear Sir : Being on the point of leaving the city, avail myself of a few idle moments to thank you kindly for the medicine you sent me, and which has restored me to the use of my limbs. I beg you to end me four bottles more, to carry on my voyage. Since I had the fortune to use Dr. table Tircture my confidence is so strong that, in gravitude to the proprietors of said medicine, I beg for to present my respects to them, and induce them to make it more publicly known as a sure Rheumatic cure. Having catted on me on the 19th of April last, and seen me prostrated on my bed. asciese in all my limbs, you can appreciate nearly as well as myself the prompt relief I received from Dr. Hampton's Tincture, and I am positive had it not been for your strong and for dble recommendations I should still have been in bed.

It is really a pity this specific should not be approved by medical men, and like all patent drugs it should suffer the imputation the public generally rive to such preparations. I myself, who was always opposed to a patented specific, took this medi-cine with reluctance, and without confidence in it, and it was only through your disfuterested, friendly recommendations, and my critical situation that ingood me to try this really beneficial Verstable

You may inform Mesers. Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr. Hampton's Vegetable lincture, as it has cured me in five weeks of a chronic Inflammatory Rhemnasters, contracted ander tropical dimates, and of seven years' periodical duration. I have only used three bottles, and find that even the deformed parts of my house are fast esturning to their former natural appearance. I have been under the treatment of several phy-

sicians in London and Paris, without any apparent benefit; also, while in New York, having tried the Thompsonian and Hemospathic remedies, after having been tormented with galvanic basteries, cold and arcmatic baths, and hundreds of internal and matism, Obstinate Outlineous Eruptions, Pimples of Pustules on the Press, Blotches, Beile, Caronic Sore Syes, Ring Worm or Tetter, Scald Head, Enlarge ment and Pain of the Bones and Joints, Stubbors external medicines, all to no effect, I am, so tar, cared by this Hampton's Vege able Tineture only. For several months past I have ased it in my family; and in lyspessia, loss of appetite, dissiness, and general delity, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy. I am, respectfully, yours,
